The screenshot shows a Linux desktop environment. On the left is a vertical sidebar with icons for various applications: a web browser, a file manager, a terminal, a text editor, a music player, a video player, a game, a system monitor, a network manager, a power manager, and a settings application. At the top of the desktop is a horizontal bar with icons for search, window management, and system status. The main area of the desktop is occupied by a terminal window titled 'Tilix: maassaf45088@cis106: ~'. The terminal is split into two panes. The left pane shows the following commands and output:
